

Camping & Caravaning

in **Olomouc** region

www.ok-tourism.cz

Dear campers, hikers and freedom lovers,

you perhaps may know the situation. By your caravan or with a tent you reach the place you have chosen to be an ideal destination. Unfortunately, you find out that, for instance, using fire for cooking is not allowed here. Nevertheless, camping without sausage roasting is like cooking without using salt. In order to avoid similar troubles, Olomouc region has published this guide. It is meant for people who love travelling by caravan, sleeping in tents or cabins and spending time at campsites. It also helps hikers and adventurers who love sleeping in the open air. It is simply a guide that each traveller visiting our region and admiring its beauty should have. Camping is not about comfort, however, we have tried to make this guide as easy and as comfortable to use as possible. Spending your holiday outside is a great lifestyle and Olomouc region offers ideal conditions for this. I believe that you will get on well with our region.

Adventures in Central Moravia

Bobsleigh tracks

Do you like the feeling of wind howling around you? Try some of the bobsleigh tracks - safe adrenalin inducing entertainment- in Central Moravia. For example the bobsleigh track in Hlubočky, open all year long, leads through a special ditch. It offers a 1540 m long ride, 1030 m downhill. What is more, there are many twists, a tunnel and a bridge construction. Currently it is the longest track in Moravia. Rail bobsleigh track in Sport park Hrubá Voda is one of the most modern tracks. Hilly, attractive, fast and maximally safe. It is open all year and is suitable for all age brackets.

Canoeing and rafting on the Morava river

Welcome on the beautiful Morava river. You can go canoeing or rafting with the help of an experienced instructor through a natural protected area. The river flows through a charming landscape and unique woodland meadows, where besides rare fauna and flora you can also spot a beaver. The most frequent part of Morava river leads from Hanušovice to Olomouc. It is about 100 km long. You can meet meanders blocked with alluvium, passable as well as impassable weirs, however, do not let it discourage you. Starting in Postřelmov the way is suitable also for beginners.

Javoříčko caves

An underground system of Javoříčko caves forms a complicated complex of tunnels, cave chambers and chasms created inside an island of Devon calcites by the Špraněk stream. Today visitors enter the caves by a man-made entrance right into a 'Detritus Cave'. This cave is beautifully decorated with stalactites and stalagmites. On the ceiling you can see thousands of stalactites and curtains of many forms and sizes. The next part of the cave is called 'Lion hollow', which is 60 m deep and is connected with a system of corridors and chasms on the middle and lower floor. Then the visitors go along a beautifully decorated high corridor into the magnificent 'Cave of Giants'. This part was discovered as early as in 1938 during a several-hour difficult pass through the lower floor. 4 m high stalagmites dominate this huge space, on the walls you can see the so called 'Niagara falls'. A staircase leading to 'Fairytale caves' offer the best view over this part. Javoříčko Caves offer much more and are said to be the most beautiful caves in the Czech Republic.

Sluňákov and The house of nature

A unique outdoor exposition about the nature of Litovelské Pomoraví. This open-air gallery connects the countryside to pieces of work by famous Czech artists – František Skála, Miloš Šejna, Miloslav Fekar and Marcel Hubáček. On the large land you can find picturesque corners, untraditional objects and a nice place where you can sit-down and relax. This forms a unique open-air gallery – e.g. 'Paradise garden', 'Forest temple', 'Sunny mountain of dreams' and others. This area is a place where you can absorb nature with all senses. The entry is free, and suitable for families with baby carriages, cyclists and disabled people.

Hranice abyss

Hranice abbys in Přerov region is, with its depth of 404 m under water level, the deepest flooded cave in the world. Above the water level there is also a dry part, so called 'Dry rotunda', 69,5 m high. This abyss is located on the right bank of Bečva river in Hranice karst not far from Zbrašov aragonite caves. Neither a measuring probe nor a mini submarine has reached the bottom so far. Hranice karst is a unique area. It was not formed by corrosions of water leaking from the surface but by strong thermal springs coming from the depths.

A restaurant is a part of the area and is focused on Czech cuisine. It offers many kinds of meals daily. It is possible to reserve breakfast, half board, full board or just come and have lunch or dinner. The restaurant offers a wide choice of alcoholic and non-alcoholic drinks, draught beer Holba and Šerák, coffee of high quality and for children Opočno ice cream.

The restaurant is wheelchair accessible, there is, of course, wifi and a small children's play area. Credit cards are accepted. Outside you can play tennis, beach volleyball or minigolf. In summer you can enjoy a reconstructed swimming pool with a paddling pool, snack bar and a playground. Children will like the children's room, playground or training field. Sport equipment and bicycles both for children and adults are rentable here.

Recreational area Morava Camp is situated in a beautiful forest park on the periphery of the town Mohelnice. It lies in a very attractive area for tourists, Litovelkó Pomoraví, near Bouzov castle, Jeseníky mountain range, Velké Losiny thermal spa, Mladeč and Javořičko caves and many cycling ways.

Accommodation is possible in a newly reconstructed motel, caravans or tents. All rooms and cabins are strictly non-smoking. Each room in the motel has its own bathroom with a toilet, towels as well as bedding are provided. Cabins provide bedding, power outlets and a table. In kitchens there are basic electrical appliances running on coins (cooker, washing machine) and a fridge.

During summer season we prepare animation entertainment programmes and regularly we organise sausage roasting above the fire in the big fireplace.

TRAVEL TIP Bouzov castle

Bouzov castle is a favourite place of many tourists. It offers classic guided tours as well as evening tours and tours in costumes. The castle is fully furnished and equipped. All pieces of furniture and other valuable items come mostly from private collections of archduke Evžen Habsburský and partly from collections of the German order. New equipment was produced specially for this building. The most valuable part of the castle is a neogothic chapel with its gothic altar. The chapel is decorated with gravestones of masters of the religious order. A castle armoury, which is a former gothic hall of the old castle, is equipped by various weapons.

Museum of Olomouc smelly cheese Loštice

It has been opened on a place of a former cheese manufacture since 1994. In the basement, where the exhibition begins, you can see how the cottage cheese was milled and pressed, on other floors the manufacturing itself as well as the producers and their life stories are documented. Many of the documents and records are original and unique. During the tour you can watch a film 'A story of an unusual aroma from uncle Křópal's storytelling' - a free film version of the history of smelly cheese production.

CAMPING BALDOVEC s.r.o. ***

Great meals and perfect accommodation is provided all year long. Parking is possible in the area near the cabins.

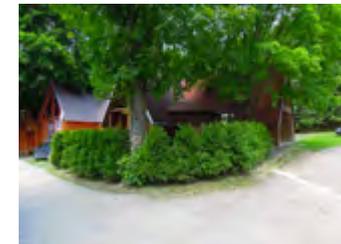

As already mentioned, Baldovec is located in Moravian karst, only a couple of kilometres from Macocha abyss, therefore it is an ideal place for nature lovers. There are interesting trips around and an active way of spending free time, these are the main advantages of staying here. Baldovec is a complex centre in the middle of the countryside. It can form a basis for a perfect holiday or a company event.

Recreational resort Baldovec is situated in Moravian karst, only a couple of kilometres from Macocha abyss.

It lies in a charming valley Bílá Voda and is surrounded by deep woods and pure nature. This resort is unique mainly for its wide range of free-time activities. It offers accommodation in many categories: from basic cabins to luxurious ones and apartments. For those who prefer sleeping outside, the camp provides 40 000 m² for visitors with their own tents or caravans. Power outlets are available here for hire.

For relaxation Baldovec offers a water world with a whirlpool, two saunas, heated deckchairs and other subsequent services.

For the visitors there is also a restaurant with a terrace, wellness centre with a salt cave, massages, adrenalin centre with rope activities and a climbing tower, paintball, archery, tennis courts, beach volleyball courts or a football pitch.

TRAVEL TIP

Aquapark Koupelky Prostějov

In this precinct you can enjoy three swimming pools with many attractions. Two helter-skelters, a water slide, kamikaze, artificial waves, stream channel, bubbles and others. For children there is a playground with a climbing wall and a children's pool. Besides water sports you can play volleyball, basketball and tennis here. If you like pétanque, there are two fields for this game.

Plumlov dam

Plumlov dam was built on Hloučela river in order to protect the land from floods. It is one of the oldest dams in the Czech Republic. The construction started as early as in October 1912. In 1933 it was finished and the dam was filled up with water. Plumlov dam offers many activities and ways to spend free time. For instance an open-air cinema or minigolf, which is situated right under the embankment. For hikers there are many marked paths around the dam, in the woods or for example to the nearby Plumlov castle.

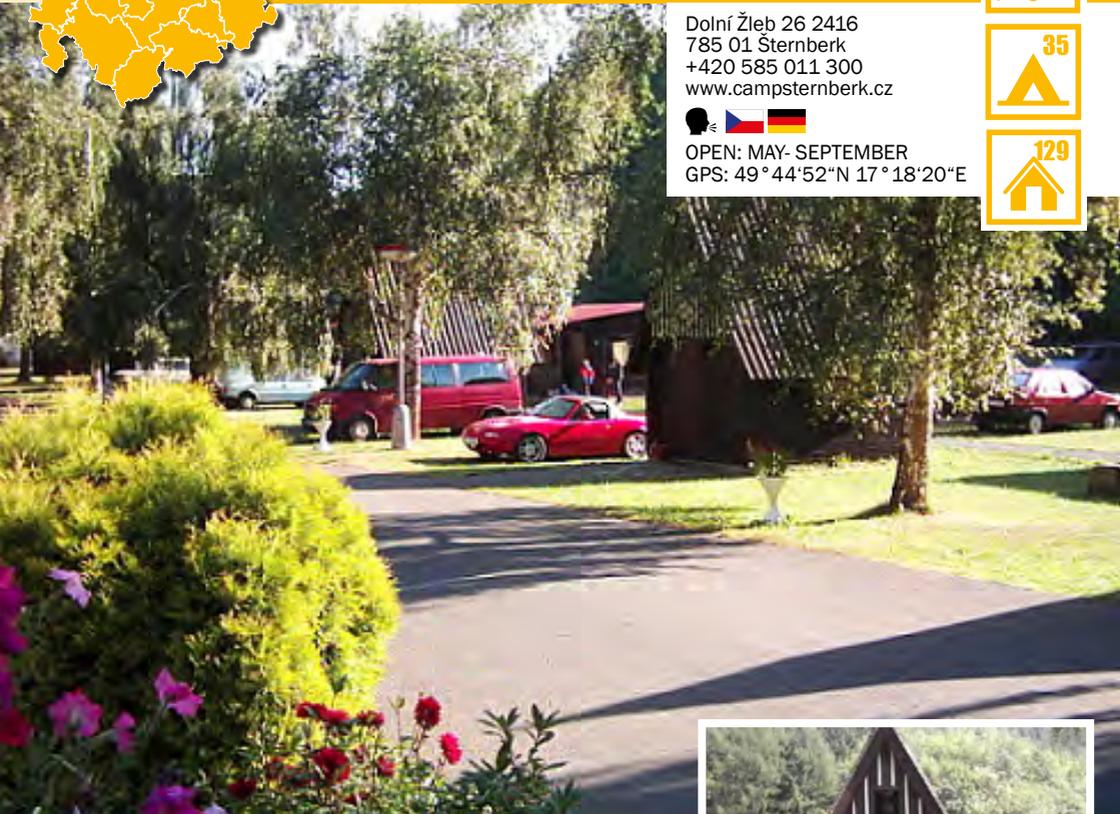

CAMP ŠTERNBERK **

Dolní Žleb 26 2416
785 01 Šternberk
+420 585 011 300
www.campsternberk.cz

OPEN: MAY- SEPTEMBER
GPS: 49° 44'52"N 17° 18'20"E

Camp Šternberk is located on the border of Haná and foothills of Nížký Jeseník mountain range, by a small river Sitka. It lies in a recreational area of Šternberk town but is surrounded by woods. Visitors can stay in cabins, their own tents and caravans.

The camp serves as a point of departure for hikers and cyclists as well as for car trips around Šternberk. There are many sights, castles, chateaus, caves, mineral springs and a ZOO. The location of the campsite enables walks to the countryside to all directions. Following touristic signs, you can walk on marked paths around all day long.

Similarly, cyclists can enjoy marked cycling ways. For car lovers there is an exhibition showing a history of a car race Ecce Homo www.eccehomopark.cz

Visitors coming by car have the possibility to visit many places in the whole Olomouc region and in the central Haná area. During late summer and the beginning of autumn you can pick mushrooms in the forests around. A place for swimming is situated cca 1 km up the stream of river Sitka, in a large natural swimming area, or in a town swimming pool with a helter-skelter 3 km away. If you take the back gate from the camp there is an old concrete swimming pool with a children's playground and a snack bar about 200 m far away. For swimming you can also use sand pits nearby. It is also possible to spend time actively directly in the resort. You can rent sport equipment and play for example badminton, football, table tennis or board games.

TRAVEL TIP

Šternberk castle

In the castle you can see a unique collection of Italian and Nordic early renaissance paintings as well as some pieces of Dutch and Flemish baroque painting. The next interesting part are noblemen's interiors from last centuries or a valuable collection of gothic and renaissance wooden sculptures. For instance a relief 'St.Kunhuta's suffering' is one of the oldest renaissance well-preserved woodcuts in Moravia. This castle shows also the life of modern aristocrats from the beginning of 20th century - hot-air heating, bathrooms and a lift for meals are presented here. In the settlement around the castle there is a unique museum of clocks.

Time exposition Šternberk

Time exposition is a project, in which the town of Šternberk follows its own tradition, as Šternberk is known as 'a town of clocks'. Time in all possible contexts is shown here. The exposition tells an attractive story recording 14 million years from the Big Bang to an atom clock. More than 20 Czech museums as well as other museums from all over the world have contributed with unique objects and interactive programmes to this project. Come to entertain and learn! You will see that time is flying faster here. All age groups, children as well as their parents, will definitely enjoy this exposition.

Resort Krásná Morava is a beautiful natural area not far from the centre of Olomouc.

This area on the banks of a creek Mlýnský potok offers accommodation in tents and caravans. Thanks to its location it is suitable for canoeists or tourists interested in Olomouc and its history. You can walk or ride on rented scooters directly to the center. Cyclists can go on a trip to the charming scenery of Litovelské Pomoraví. As far as meals are concerned, the camp provides a garden grill to rent or you can eat in a snack bar.

Krásná Morava resort organises summer cultural events. More information about these programmes are to be found on websites in advance.

TRAVEL TIP

ZOO Svatý Kopeček

In this ZOO there lives more than 1700 animals of more than 300 kinds. In five pavilions and many outside areas and expositions you can also see some rare species. Children will love a small train going through the ZOO or the 32 m high lookout, which you cannot see anywhere else. This ZOO specializes in giraffes, African hoofed animals, nordic fauna and sea aquariums. A giant shark aquarium is a rarity, it is the biggest aquarium of its kind in the Czech Republic. Besides this one, there are many beautiful sea aquariums with coral reefs. A big experience is the pavilion of bats flying above your heads. What is more, in the middle of this ZOO, there is a big rope centre for children.

Camping Žralok Plumlov is situated on the bank of a peaceful pond Podhradský rybník at the foothills of Dražanská vrchovina. It lies outside the village Plumlov near the forests. Right from the campsite there is a breathtaking view of the castle Plumlov.

Accommodation is possible in your own tents, caravans or cabins.

In the resort there is a snack bar, a playground, a day room with a terrace, a volleyball court and a fireplace.

During the summer season many interesting sports as well as cultural events are organised here. Swimming is possible in Podhradský pond.

TRAVEL TIP

Castle Plumlov

Castle Plumlov above the pond Podhradský rybník is located in the village of Plumlov. It was built by Jan Adam from Lichtenstein during 1680-1688. The building was supposed to have three wings with a rich decorated facade. Unfortunately just a torso has remained and the building has never been occupied. Inside you can see three castle expositions: a castle history with a pottery, weapons and furniture collection. The second guided tour includes 'Fairytale basements' with a storytelling about Plumlov and its surroundings. The third one is very special and includes a little bit adrenalin. It shows rooms on the fifth and sixth floor and partly also the cellar, which have never been opened to the public.

CAMP PŘEHRADA MOSTKOVICE

www.autokempmostkovice.cz

OPEN: JUNE - JANUARY
GPS: 49° 28' 03"N 17° 02' 32"E

Camp Přehrada Mostkovice lies above Plumlov dam, a popular place with tourists. From this place you also have a nice view of Prostějov.

The dam is a favourite place for swimming in summer. There are plenty of places around which are worth visiting - both on foot or on a bike. Nearby there is for example Plumlov Castle or the historic centre of the town Prostějov.

In the resort you can rent sports equipment such as balls, tennis rackets or petanque and use them on the multipurpose playing field inside the campsite. Under the dam you can play minigolf, beach volleyball and on the beach you can rent a boat or a paddle boat. Around you can ride a horse as well.

The visitors of this camp can cook in separate kitchens, eat in the snack bar or go to the nearby restaurant. In the campsite there are common sanitary facilities.

TRAVEL TIP

Čechy pod Kosířem chateau

It is a classicistic chateau surrounded by a beautiful park that belongs to the most valuable areas with historic green vegetation in all of Moravia. This park is connected to an aristocratic dynasty Silva-Tarouca. Josef Mánes, a famous Czech painter, was a close friend of this family. He regularly visited Čechy pod Kosířem and made his pieces of work here in 1849 - 1871. Inside the chateau you can admire a reconstructed greenhouse and beautiful interiors. The greenhouse serves as a café nowadays. In autumn 2016 a minizoo was created here.

CAMPSITE LOBODICE

www.lobodice.cz

OPEN: APRIL - SEPTEMBER
GPS: 49°23'43.7"N 17°17'42.6"E

The camp is located in a peaceful part of Lobodice village by a mill-race flowing into Morava river.

The camp offers a place for tents and also for sport - there is a playing field and a tennis court.

A part for relaxation provides sitting by the fireside, a smokehouse and a barbecue.

Nearby there are three pubs, where you can eat lunch, and two shops.

TRAVEL TIP

Tovačov Chateau

Tovačov Chateau is a very valuable sight. It used to be a castle built on a swampy terrain on the east periphery of the town. During the period of late Cimburk the castle was rebuilt into a renaissance chateau. Inside, besides many thematic exhibitions, you can see a renaissance portal of a castle tower, a castle chapel with a neobaroque plastering, the left wing of the castle with a staircase in the Vienna style and a ceremony room of the town. Since 2012 it is possible to visit 'Knights' hall' and 'Salmovsky hall' again. In the vestibule there is a new exposition of a 'snooker room', also called 'men's room'. Reaching the top of the castle tower and looking around is an unforgettable experience.

IN LIFE CAMP LITOVEL

Koupaliště 651
784 01 Litovel
+420 727 965 970
www.in-life.cz

OPEN: APRIL - SEPTEMBER
GPS: 49°42'13"N 17°04'06"E

The camp is situated on Morava river and a cycling way in Litovel. It is intended not only for canoeists and cyclists but is suitable for all families. Directly in the camp you can rent a canoe, raft, kayak and all water and sports equipment. Parents as well as children will definitely enjoy the activity centre IN LIFE or water attractions – aquazorbing, children's paddle boats, bumper ball and other.

If you need to prepare your own meals, you can use metal portable fireplaces. In the outside bar or in a nice restaurant nearby you can try great local Litovel beer. Trips around are best on rented scooters, for example to the natural swimming pool 100 m away.

CANOEING CAMPING AREA HYNKOV

OPEN: APRIL - SEPTEMBER
GPS: 49°40'14.9"N 17°10'29.9"E

This favourite camping area for canoeists Hynkov is situated on the right bank of Morava river and serves as an ideal stop on the way from Litovel to Olomouc.

It lies in the middle of this way near a local pub, so it is a great place to stop and refresh yourself during hot summer days. Canoeists who also like other sports can use a small football pitch or a tennis court.

TRAVEL TIP

Náměšť na Hané chateau

A town Náměšť na Hané lies on the east part of Dražanská vrchovina, only about 15 km west from Olomouc. In this town you can visit a late baroque chateau surrounded by a French park. About 20 rooms, fully furnished in different historic styles, are open to the public. The collections of Czech, Vienna and Chinese porcelain are very interesting, the most valuable is a collection of Dresden china. An original library with almost three thousand books is very unique and is worth seeing. A part of chateau expositions forms also a modern art gallery.

STODOLA NOVÉ MLÝNY

783 21 Bílá Lhota
+420 603 875 957
www.stodola-morava.cz

OPEN: YEAR ROUND
GPS: 49° 43'56"N, 16° 59'46"E

This barn („stodola“) is located in a small settlement Nové Mlýny between towns Mohelnice and Litovel. Its name refers to its former use, when this building belonged to a millhouse situated on the opposite bank of Morava river. Forty years ago this barn burned down. Nowadays it is newly reconstructed in its original rustic style. If you need a quiet place for an overnight stay, this is the right place for you.

The camping area on a meadow around the barn provides the possibility to sleep in a tent and a large space for sport. You can rent a canoe and some sports equipment here.

This area is located in the beautiful and clean surroundings of a protected landscape area Litovelské Pomoraví. The place is a favourite mostly for its beautiful scenery. What is more, Morava river flows right next to this camp, so this place is very popular with canoeists.

TRAVEL TIP

Bílá Lhota Arboretum

Not far from Litovel, in a chateau park in Bílá Lhota, an arboretum with 400 kinds of rare woods is situated. These leafy, coniferous and all year long green trees and bushes come from north America, Japan, China and many other countries. This park was probably created around the year 1700 during chateau renovations but at that time it was planted with common trees and bushes. In 1926 Guido Riedl, a famous dendrologist, came to Bílá Lhota and transformed the park according to his conception. On the place of 3 hectares he planted about 500 kinds of decorative woods.

VILLA HÁJ

Třeština 71

+420 721 850 509
www.vila-haj.cz

OPEN: APRIL - OCTOBER
GPS: 49.8038289N 16.9400511E

Vila Háj guest house is located in the Háj settlement on Morava river, in the beautiful surroundings of Litovelské Pomoraví. Visitors have the possibility to stay in a guest house directly in the first-republic villa or camp in tents or caravans next to Villa Háj.

The resort offers an outside snack bar, a fireplace and sanitary facilities. Next to the villa there is a national technical sight – a hydroelectric power station – and a riding club, where you can ride a horse. Thanks to its unique architecture and countryside this area is a popular destination for cyclists, canoeists, families with children and horse lovers.

TRAVEL TIP

Mírov – Mírov hiking trail

As a point of departure you can choose the centre of Mohelnice and follow the green touristic sign through Podolí, Vyšehorky, the foothill of Vraní kopec to Mírov. At the touristic crossroad turn right and follow the blue sign through the valley of Mírovka river to Mohelnice quarry. From this place through Křemačov, following the blue sign and go back to Mohelnice town centre. Mírov village with a castle lies 7 km north-west from Mohelnice. At the beginning of Mírov, on your left hand, you will see a prison cemetery with a monument and a small chapel. From the place of the cemetery there is a nice view of the castle, transformed into a prison in 18th and 19th century.

The best cycleways of Central Moravia

Bečva Cycleway

From mountain springs into the valley you can cycle thanks to a unique project 'Bečva cycleways', which is a part of 'Highway for cyclists' C1. From the spring of Rožnov Bečva or Vsetín Bečva all the way to the place where it meets Morava river you can cycle more than 160 km on a marked cycleway along Bečva river. You will cross two regions – Zlín region and Olomouc region – small as well as bigger villages, towns, charming countryside and you can stop at many interesting places. All in all this journey will definitely be unforgettable. Some parts of this Bečva cycleway are suitable for in-line skaters, who can use a concrete path along the river and enjoy the beautiful scenery. Come and try this highway for cyclists, on a bike, scooter, in-lines or just on foot.

Hvězdná Cycleway

This cycleway from Olomouc to Šternberk is 14 km long and has the number 6104. The way is quite flat and is suitable for all age groups, for cyclists as well as in-line skaters. It begins in Olomouc in Chválkovice, where you can park your car. It continues to a flyover in Černovír, from this place it leads along the railway. On the cross with a creek Trusovický potok the cycleway changes its way to Hlušovice. Near the bridge, from the left bank of Trusovický potok around Hlušovice, it links up to a cycleway to Bohuňovice. You should still follow 6104 leading along the railway to Šternberk. You can stop and have a break in Šternov and then continue to Šternberk.

Bandit Cycleway

This cycleway of microregion Uničovsko brings you to hilly places around Oskava and to ruins of Rabštejn castle, where a group of robbers and bandits robbed rich merchants on their way to Olomouc a long time ago. The length of the trail is 40 km and it is regarded to be quite a difficult trail leading through hilly terrain mostly on concrete cycleways and roads of third class. However, many interesting places on the way will definitely reward you. For example a neogothic Church of Maria assumption with its ostentatious interiors and modern stained glass windows in Uničov townsquare. In Dlouhá Loučka you can visit a former gothic church of St. Bartoloměj with a valuable round portal and a baroque chateau with a park full of rare woods. Šumvald is a village known since 1287, Oskava is a point of departure of many hiking and cycling trails to a protected landscape area Jeseníky.

'Through The Kingdom of forest elves'

The cycleway around Uničov offers easy cycling through a flat region of Central Moravia suitable most of all for families with children. This area is full of cultural sights and interesting places. Your fairytale way to elves – forest guardians – starts on a comfortable cycleway from Uničov to Střelice, where all children will definitely love the paddock with horses. If you book tickets in advance, you can also visit a Village museum. From this place you continue on a non-marked concrete road directly to see the elves in their green kingdom. The forest welcomes you by the hum of trees, quiet gurgle of water and a carpet full of colorful flowers. After a while, riding over a hill Jelení kopec, you will come to a marked cycleway, where you turn left and continue to Nové Dvory. Here you pass a turn to a romantic area Nové Zámky and a village Červenka. Just after a while you can see Litovel, 'Haná Venezia'.

Adventure in Jeseníky

Adrenalin Park Jeseníky (Česká Ves)

In a beautiful countryside of Jeseníky there are many activities prepared for you. Everybody will definitely enjoy. This rope centre offers three routes of different levels of difficulty, all of them can be combined. In total there are 47 obstacles. Adrenalin Tower is a 14 m high tower with a rope web, a ladder and a climbing wall with an overhang and minimally 6 ways of different levels of difficulty. Children's rope centre, a route for kids, is 130 m long and is intended for children from the age of 4 and 100 cm tall. All 13 obstacles have a special self-secure system, which provides safety at all times for the children who are 1,5 - 4 metres high. A giant swing offers a huge dose of adrenalin. Next attraction is a giant ropeway - a 140 m long descent beginning at the height of 13 metres. From here you can admire the view of all of the Adrenalin Park and its surroundings. That is not all: this park provides also horse riding, trampolines, a bungee trampoline, paintball and archery. Of course, you can rent a mountain bike or a scooter with all the necessary equipment here.

Scooter downhill Areál Kouty

Do you plan to visit the hydroelectric power station Dlouhé Stráně and don't want to come back the same way? You can rent a scooter. This will provide you an extraordinary experience during the longest scooter downhill in the Czech Republic. It is more than 17 km long and leads from the upper reservoir Dlouhé Stráně around the lower reservoir and then to the Kouty resort. Both scooters and helmets are for rent in a shop Helia Sport in Koutecké square or directly by an upper reservoir Dlouhé Stráně. You can use a chairlift to Medvědí hora (Bear mountain) - 1.100 m high - with an interesting lookout. With the scooter you must then walk 4,5 km up to the upper reservoir Dlouhé Stráně. On the way you can also turn directly to the lower reservoir and avoid the final rise. A great sports experience is waiting for you: 17 km downhill on a scooter (about 30 minutes) back to Koutecké square. On the way you can admire views of the highest peak of Jeseníky - Praděd - and the highest point of the Czech Republic (the top of Praděd transmitter).

Using a chairlift to Šerák

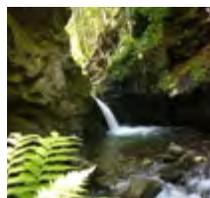

The chairlift leads along the northern ridge of Jeseníky and is open all year long. It consists of two parts: The lower part Ramzová - Čerňava is 1459 m long (a chairlift for four people) and the upper part Čerňava - Šerák is 1810 m long (for two people). The end of the lift is on the peak Šerák (1351 m above sea level). From here you have a wonderful view of the open valley of Jeseníky. Next you can walk on the ridges through Keprník, Vřesová studánka, Červenohorské sedlo, Švýčárna cottage, Praděd, Ovcárna, Vysoká hole, Kamzičník, Ztracené kameny and Jelení studánka to the saddle Skřítek.

A Mining open-air museum Zlatorudné mlýny

On the way from Zlaté Hory to Ondřejovice, a charming valley 'Údolí Ztracených štol' is located. A small river Olešnice has accumulated gold in its silt for millions of years. Gold has been mined both from the surface and from the depths here. Nowadays a replica of medieval mining mills with an educational path 'Údolí Ztracených štol' is built in this romantic valley. In the mills you can see how the gold ore was crushed and if you are lucky you can bring a small piece of gold home. Wooden machines, made according to original sketches, are driven by water wheels pumping energy from the former drain. The educational path leads also to a place, where 'water flows up the hill'. The optical illusion is so strong that you can hardly understand the skills of long-time gold miners.

Waterfalls Nýznerovské vodopády

Nýznerovské vodopády are located in a settlement Nýznerov by Žulová in a valley of a creek Stříbrný potok. The waterfalls are created by a system of cascades and rapids in a romantic pass above the mouth of stream Bučinský potok. Thanks to the high waterfall Nýznerov waterfalls are very impressive. The lower part of the waterfall goes through a narrow rock pass which is difficult to access. The upper part is accessible by a staircase that leads to the bottom of a hollow. The waterfalls arose on the place, where water hit the rocks resisting corrosion. Water falls level by level into a depth of 14 m, the highest levels are up to 3 m high. Since 1968 these waterfalls have been declared a protected natural piece of work 'Vodopády Stříbrného potoka'. The best way to access this place is on a small forest road from Nýznerov, intended only for walkers.

Camping Bobrovník is located in a valley of the Staříč river between Lipová Lázně and the town Jeseník in a recreational area Bobrovník. Peaceful surroundings of the campsite are influenced by the neighbourhood of a protected landscape area. Visitors can stay in cabins or in a motel all year long. The motel provides rooms with two or three beds, each room has its own bathroom and a toilet. Cabins have 4 beds, but you must use a common sanitary facility. Parking is possible directly next to the motel or the cabins.

For caravans there are 32 bounded pieces of land including power plugs (10A), tourists with their own tents can use a large grass area. Visitors can use washing machines and a kitchen with the possibility to keep their food in the fridge.

For romantic evenings there is a fireplace and a smokehouse. Inside the campsite you can eat in a restaurant. There you can also order half board in case you stay at least a week. In the main season basic food can be bought in a daily opened snack bar.

Swimming is possible in a nearby natural swimming area 'Na Bobrovníku'. Inside the camp you can rent some sports equipment as well as a bike, in case of bad weather you can play snooker. A wide range of sport activities and cultural programmes are provided by the town and spa Jeseník, Lipová Lázně and its nearest surroundings.

First of all Jeseníky are suitable for all kinds of tourism – hiking, cycling, winter tourism and downhill skiing. Camping Bobrovník provides its services in winter as well, all buildings and sanitary facilities are heated.

Camping Bobrovník offers suitable accommodation for companies and other groups also off season.

TRAVEL TIP

Caves Na Pomezí

Caves Na Pomezí form the largest cave system in the Czech Republic created by marble dissolving, that is open to the public. The outstanding feature of these caves are narrow, sometimes very high corridors, which make so called domes on places where the corridors cross. For these caves cascades and giant jagged stalactites are typical. The underground is also a favourite place for many kinds of bats.

Zlatý Chlum lookout

A dominant feature of the charming town Jeseník is, besides Priessnitz spa, also a nearby peak Zlatý Chlum (875 m). You must visit a stone, 26 m high lookout. From the top of the lookout there is a breathtaking view of the lake Otmuchovské jezero in Poland and all of the Hrubý Jeseník mountain range from Praděd to Šerák. In case of nice weather you can also see Kralický Sněžník and Rychlebské hory looking north-west. To get to the top you must climb 145 stairs.

CAMP MAMUTOV

Camp Mamutov is situated in a valley of a stream Prudký potok, which makes a beautiful atmosphere here. It is very romantic to watch the sunrise and sunset from the valley. Fresh air gives you energy to go on trips around.

This campsite is suitable for all people who love camping in pure countryside in the mountains. In the camp you can find a fireplace and wooden benches under spruces for your relaxation. Although this campsite is not very large, thanks to a cottage and a guest house you will have the best service. Sanitary facilities, restaurant, a bar, touristic maps and an information centre are provided here.

For sport fans the resort is well equipped. There are playing fields with all necessary equipment, disc golf and a football pitch. In case of bad weather you can hide in the summerhouse where you can play darts, table football, table tennis and there is also a place for small children with toys.

Bikes can be rented as well as deposited here. Inside the resort there are some private ponds but if you like fishing, you can freely use them.

TRAVEL TIP

A forest bar Horní Lipová

A forest bar is a self-service bar located in a village Lipová-lázně, specifically in the part Horní Lipová. You can find it on a hiking trail from Horní Lipová to Smrk after cca 2 km. Tourists can buy various beverages that are kept cool by cold spring water. They can make coffee and tea. A sign „výlov“ (‘fishing out’) points to a wooden manger, where cans with energetic drinks, beer and beverages for kids are cooled. On an always prepared fireplace you can roast a sausage or directly take it out of a smokehouse. This forest bar is open 24 hours a day. You put money into a small money box.

TRAVEL TIP

Caves Na Špičáku

These caves are located between villages Písečná and Supíkovice. They belong to the oldest documented caves in central Europe. They form a more than 400 m long labyrinth of corridors and rifts that used to serve as a shelter a long time ago. This is visible on the walls where you can admire paintings and inscriptions (the oldest from 1519). In winter 2007/2008 the cave was reconstructed, so visitors can walk on new paths and bridges. The corridors have a typical heart profile created by water from the glacier. The guided tour is 220 m long and is wheelchair accessible.

On the bank of Morava river, near Postřelmov, a former sand quarry is located. Today it is known as a recreational area Pískáč Postřelmov. Thanks to its position it is loved by canoeists who can refresh themselves here. In the area you can also hire sports equipment for canoeing.

During summer there are many cultural events taking place here, for more information you can find it on the website.

TRAVEL TIP

Lavender café

In May 2015 a small lavender café in the square of town Zábřeh was opened. It is a very attractive place for all lavender and coffee lovers but also for those who like wine and all people enjoying time in a cosy café scented by lavender. The café is open during a so called castle season - from April to September. You can try for example lavender cappuccino, lavender icecream, home made desserts or refreshing lavender lemonade.

The best cycleways in Jeseníky

Cycleways Rychlebské stezky

Do you ride a mountain bike and enjoy narrow trails? Then Rychlebské trails are just for you – trails for mountain bikes where it is not important how far you go but where you go. Enjoy the unique scenery of Rychlebské hory and Horní Lipovská surroundings. Rychlebské stezky and Lipovské stezky, which were created by reconstructions of old hunting pathways, offer the best experience to the riders. These trails do not form a line from point A to point B. However, they form connected circuits beginning and ending in Černá Voda. You can enjoy the magnificent scenery of Rychlebské hory with deep forests, giant granite stones, deserted quarries and mountain creeks. The trails lead through broken stones, through fords, on clay fields and sometimes on man-made paths made of stones. In 2017 new paths on Sokolský vrch were open to the public. New is also a Pumptrack and training trails with jumps and big stone parts for even more adrenalin.

Cycleways Lipovské stezky

Lipovské stezky are trails for mountain bikes located on a meadow above hotel Helios garden. They connect parallelly built Lipovské stezky – Toč leading through a forest terrain. Rychlebské stezky and Lipovské stezky form a web of trails intended for mountain bike downhill. Lipovské stezky consist of two types: a Helios trail on the meadow 4700 m long and Toč trail located in a forest. Its total length is 3300 m and a vertical distance 70 m. The trails connect different terrains and start and finish on one place so it is not necessary to travel from one place to another.

Witch´s Cycleway („Čarodějnická cyklotrasa“)

This cycleway goes on Czech – Polish borders and connects, besides other places, Mohelnice, Šumperk, Jeseník and Polish Nysa, Otmuchow and Paczków. In Central Morava region you can stop in Mírov and Mohelnice. In Mírov there is a 12th stop with a monument in a chateau park remembering Šumperk dean Kryštof Alois Lautner´s imprisonment from 1680 to 1683.

In Mohelnice there are two commemorative plaques – on the place where the dean Kryštof Alois Lautner was burned to death in 1685 and on the wall of the so called 'witch´s house' where he was imprisoned. Alois Lautner was accused of baptisms, marriages and burying in the name of Satan.

Jescyklo

107 km of marked circuits Jescyklo go mainly through the ridge Sokolský hřbet above spa Jeseník and Česká Ves. They lead also to Zlatohorská vrchovina and under the ridges of Jeseník. Around Česká Ves, Jeseník and the spa several circuits have been created, which each average cyclist as well as skilled children should manage. They form round cycle trails guiding you through this scenery. You will stop on interesting places and at the end you come back to the start. You can take circuits „Za zatopenými lomy“, „Okolo Studničního vrchu“, „Tajemným hvozdem“, „Za starými osadami“ and „Za výhledy“. The first three discover only Sokolský hřbet area, the area full of famous Rychlebské stezky trails. Better cyclists can connect directly to the trails on some places. During your way you can take a break on resting places. In Jeseník town, in Adrenalin park Jeseník and Priesnitz spa you can use the cycloboxes and store your bikes. Besides these, in Priesnitz spa, there is also a self-service available 24 hours a day. Also at the farm Orel, in Adrenalin park Jeseníky and Česká Ves you can take advantage of basic service for bikes and bike depository.
